Profile

Having interest in designing webpages adding my creativity on it. Can work in groups as well as solo.

Projects

- Personal Portfolio- Made my personal portfolio website with help of html , css , javascript. It took me more than 1 month because it was a solo project.
- Fresher's Guide- It is my another project in which we designed a website for the freshers , to show them the right path for the academics and placements. It was a team project were i worked on full front-end part and some reports. In front i used html ,css and javascript.
